## File Description

Column Name	Column Description
CALENDAR_YEAR	Four digit year representing the twelve month period starting with January and ending with December. Indicates the calendar year in which payments were actually made to the employee. Calendar year and calendar quarter together represent the end of the reporting period.
CALENDAR_QUARTER	Payroll data will be published quarterly. The single digit calendar quarter represents the end of the period that the data spans and not the actual quarter that the payment was made. For example, when calendar quarter is set to '2', the data would include payments made from January through June for the given calendar year. Calendar year and calendar quarter together represent the end of the reporting period.
AS_OF_DATE	The last day of the quarter of data represented in this dataset.
FULL_NAME	Full name of the employee at the end of the reporting period.
AUTHORITY_NAME	An independent authority or commission that is neither a cabinet department nor an agency in but not of a cabinet department.
SALARY_HOURLY_RATE	Depending on the value in the column Compensation Method, the value in this column is either the annual salary, hourly rate or a daily rate for the employee at the end of the reporting period. When the compensation method is 'Part Time' the salary listed has been adjusted to represent the part time percentage.
MASTER_SECTION_DESC	The area of the department to which the employee is assigned at the end of the reporting period.
MASTER_TITLE_DESC	The title is a descriptive name that identifies a position or group of positions with similar duties, responsibilities and qualifications. This is the title associated with the employee at the end of the reporting period.
